

INSTITUTE OF ENGINEERING & TECHNOLOGY

Notice: Campus wifi and computer centre access rules

Date: 04 August 2026

Campus wifi access is granted against the student roll number for the current academic year. The account is activated within two working days of registration and stays active until the end of the even semester.

Each student is allowed two devices on the network at one time. A third device is rejected automatically. Sharing credentials with another student leads to suspension of the account for thirty days on the first instance.

The computer centre in the second floor of the library building is open from 09:00 to 19:00 on working days and from 09:00 to 13:00 on Saturdays. Printing is charged at Rs. 2 per black and white page and Rs. 8 per colour page, paid through the portal wallet.

Downloading of copyrighted material and running of servers or mining software on the campus network is not permitted. The network team logs traffic and reports violations to the discipline committee.

For a forgotten password or a blocked account, students may write to the network administrator from the institute email address, or visit the computer centre help desk between 11:00 and 16:00.

Head, Computer Centre
